

## Handle Brexit in MONITOR G5

As of January 1, 2021, Great Britain should be handled as an export country. This does not include Northern Ireland, which should still be handled as an EU state when it comes to trade in goods. Here is some information on what you must have in mind as a Monitor customer, and what these changes mean in MONITOR G5.

### General registers | Other tables | Countries

In the **Countries** procedure you can enter general settings for the countries you have business relations with.

For the **GB** country code, uncheck EU. Change the customer group, supplier group, and VAT groups as required. These settings will be applied automatically when registering new customers/suppliers with the **GB** country code.

Landskod	Namn	EU	Språk	Valuta	Adressformat	Kundgrupp	Momsgrupp kunder	Leverantörgrupp	Momsgrupp leverantörer
GB	Storbritannien	<input type="checkbox"/>	EN	Brittiska Pund	Stad, Postnummer (två ra...	Export	Import/Export	Import	Import/Export

### Mass update of information for existing customers/suppliers

It is possible to perform a mass update of information for existing customers/suppliers with the GB country code in the **Customer list** and **Supplier list** procedures.

Select information in these lists as follows:

Selektioner	Från och med	Till och med	Exkludera	Urval
Språk			<input type="checkbox"/>	
Valuta			<input type="checkbox"/>	
Land - Postadress	GB	GB	<input type="checkbox"/>	
Skapad när			<input type="checkbox"/>	

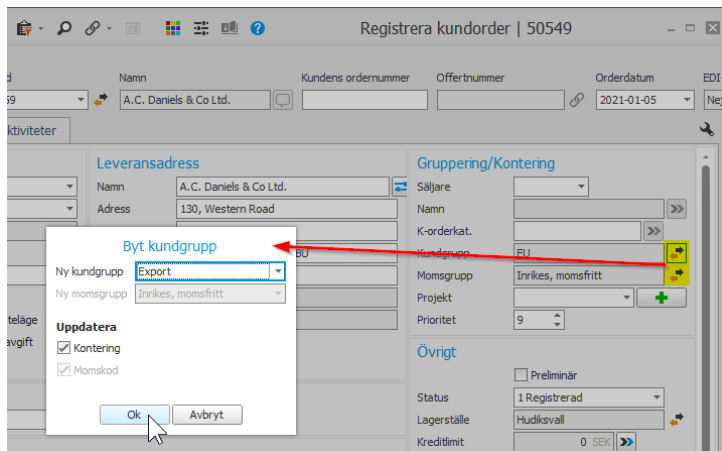

Choose updateable list  and change the customer/supplier group and VAT group.

You can also use Find & Replace here .

Kund	Namn	Prioritet	Kundgrupp	Momsgrupp	Momsreg
7159	A.C. Daniels & Co Ltd.	9	3	6	
7184	Support Systems International	9			
7187	Aidserve Ltd	9			
9613	Raytheon Systems LTD.	9			
9871	Atlas Copco (MFG) LTD	9			

## Update existing orders/bases

Changes made to customers/suppliers will not update existing orders and bases. These must be reviewed and changed manually.

## Trade with Northern Ireland

Country code **XI**, for Northern Ireland, will be available in version 2.46 of MONITOR G5, at the latest.
